

perfectionist

12th January, 2020

A watch face for the Lenovo smart clock, inspired by the measuring instruments of the 20th Century. The watch face inspires us to tell a story of the time in precision and perfection, just like the draftsmen before us, highlighting the importance of measuring time and its significance.

concept by Richard Pariath & Praharsh Bhatt

The watch face is designed to be simple enough to accurately tell the time and the markings on the watch face is based on measuring instruments
